

CENTRE FOR STUDY  
OF INTERNATIONAL S&T  
AND EDUCATIONAL  
PROGRAMMES

# International Centre for Innovations in Science, Technology and Education (ICISTE)

- Founded in November 2006 as a result of the constant raising demand for an institution that would unite specialists in the sphere of international S&T cooperation
- Non-profit partnership working with the leading research and scientific organizations as well as the Russian Ministry of Science and Education

## ACTIVITIES & EXPERTISE:

- ✓ Takes part in several national S&T expert councils and panels
- ✓ Takes part in a range of national and international R&D programmes
- ✓ Maintains close connections with governmental structures of the Russian Federation, including Ministry of Education and Science, and leading Russian scientific organizations and innovation centers
- ✓ Assistance to governmental structures in international cooperation with scientific and research organizations
- ✓ Organization of round tables, summer schools, seminars particularly with international participation
- ✓ Takes part in foresight studies of the S&T&I development in the Russian Federation till 2025 and is responsible for coordination between regions and experts
- ✓ In 2013-2014 ICISTE contributed to the organization of the EU-Russian Year of Science as part of the Joint Secretariat.
- ✓ Supports the organization of joint S&T projects within Russian FTP «Research and development in Priority Fields of the S&T Complex of Russia 2014-2020»

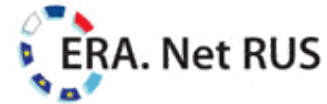

# Analytics & monitoring

- ✓ Analytical reviews of Russian performance within the European framework programs and worldwide foresights in the view of its potential application in Russia
- ✓ Development of the foresight methodology for the Russian Federation and Russian regions and its further implementation
- ✓ Analysis of the leading government-funded S&T&I programmes
- ✓ Monitoring and organizational support for the selected jointly funded projects within the USA-Russia R&D programmes and EU-Russia Joint schemes
- ✓ Monitoring and expertise of the research projects implemented within the Russian FTP «Research and development in Priority Fields of the S&T Complex of Russia » 2007-2013 / 2014-2020
